*Question: Do you want a single Technical Proposal and single Price Proposal covering both contracts, as was the case last time and in accordance with the sections of the specifications I quoted? Or do you expect a separate Technical and Price Proposal for each contract we wish to bid on, as the answer above seems to suggest?*

*Answer: Proposers shall submit one (1) price proposal for Contract A only, or one (1) Price Proposal Contract B only, or two (2) separate Price Proposals; one for Contract A and one Contract B. Proposers shall submit only one (1) technical proposal which will address Contract A only, Contract B Only, or both Contracts A & B, depending on which contract(s) are being included in your Price Proposal.*
